48 Hours investigates the most intriguing crime and justice cases that touch on all areas of the human experience, including greed and passion.

This 36V pure sine wave inverter provides smooth, home-quality power with up to 2500W continuous and 5000W peak output. It is ideal for running 110V/120V appliances in RVs, boats, ...

Operating the inverter at such a low voltage will probably limit it's maximum power output. However, my data sheets indicate the lower voltage is 38V, so 36V is not likely to work.

New Madeleine McCann search launched. Here's our latest "48 Hours" investigation on the case.

While technically possible to run a 48V motor on a 36V battery, the practice comes with significant compromises in performance, reliability, safety, and overall value.

On Saturday, December 6 at 10:00 PM ET/PT, CBS's 48 Hours airs a powerful new episode, "Help Find Molly Bish's Killer," revisiting one of Massachusetts' most painful and unresolved ...

It is important to match the battery bank voltage with an inverter that can handle that same voltage. Simply put, if you have a 12V system, you need a 12V inverter; a 48V system requires ...

Season 38 of 48 Hours was released on September 21 and consists of 33 episodes. A brilliant college student is killed by a former classmate. Inside the trial of the secret neo-Nazi ...
