What is a Sunsynk 5kW hybrid inverter?

The Sunsynk 5kW hybrid Inverter is an inverter for managing power flow from multiple sources such as solar, main electrical grid, and generator.

What is a sunsynk 5kW Ecco hybrid inverter?

The Sunsynk 5kW ECCO hybrid Inverter is the ideal inverter for managing power flow from multiple sources such as solar, main electrical grid and generator. All of the power of the previous Sunsynk model in a smaller package! Start by visiting the Apple App Store, or Google play store and searching "Sunsynk Logger".

Can a 5kw inverter be used with a 6.6kw Solar System?

For example, a 5kW inverter is suitable for use with a 6.6kW solar system. There are system losses as solar panels convert sunlight to electricity. It allows for the use of lower-rated inverters. Make sure that the inverter you buy has a long enough warranty.

How long does a sunsynk inverter last?

If done later than this, the battery will be registered separately at 10 years, and the inverter maintains a 5 year warranty. Installations with Sunsynk products now need to be registered here to gain full activation of the warranty.
