---

Our economical, safe and long-lasting product for a wide range of applications. The E22 Li-ion battery is a containerized plug & play solution, totally equipped and guaranteed for over 4.000 ...

HBOWA uses top-class grade A lithium iron phosphate ...

HBOWA uses top-class grade A lithium iron phosphate battery cells with over 6000 cycle times to ensure the battery quality in the energy storage container. The battery container supports ...

Our containerized systems are built with robust materials and advanced safety features, ensuring reliable operation even in harsh environmental conditions. Each unit undergoes rigorous ...

This 1.2MWh/600kW all-in-one C& I energy storage cabinet utilizes Lithium Iron Phosphate (LFP) battery technology, featuring scalable capacity from 1MWh to 10MWh with 500kW rated power ...

With 75kW of output and 215kWh of energy storage, this High Cube foldable solar power container offers enhanced performance for locations requiring more capacity without ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

We have developed a 600kWh 1MW Battery Energy Storage System (BESS) that is designed to be cost-effective and easy to install for on-grid, off-grid, or hybrid commercial/industrial energy ...

Feature highlights: The 2MWh-6MWh Hybrid Battery System is a containerized energy storage solution featuring LiFePO4 batteries, liquid air cooling, and a 40ft design. It integrates battery ...

Equipped with photovoltaic MPPT interface, PCS, STS (grid connected and off grid switching, diesel generator interface, fire protection, monitoring system, etc.) A true integrated energy ...
