Product measurements & weights are calculated based on sample data. Individual specifications are subject to vary due to the manufacturing process & battery components.

The high capacity, deep cycle Industrial Flooded batteries from Rolls Surrrette feature a heavy duty plate grid, double insulated with a polyethylene envelope and a glass mat to protect ...

The Surrrette Solar Battery 4 CS 17P is a 4V, 770 AHr battery housed in a dual-wall container for added protection and durability. This deep-cycle battery is designed for renewable energy ...

Housed in a durable dual-wall container, it ensures long-lasting performance, low maintenance, and reliable power output, making it an ideal solution for off-grid solar applications.

This battery is a very high capacity battery with New Generation series 5000 advantages and features. Dual case, replaceable cells, small foot print ...

Housed in a durable dual-wall container, it ensures long-lasting performance, low maintenance, and reliable power output, making it an ideal solution ...

The series 5000 all have a dual container construction and the high-density polyethylene material maximizes durability and eliminates acid leaks even ...

The series 5000 all have a dual container construction and the high-density polyethylene material maximizes durability and eliminates acid leaks even if the outer container ruptures. The unique ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Dual container construction means each cell has a durable polypropylene inner container. This eliminates breakage due to rough handling and acid leakage and short circuits due to the ...

# 770ah solar container battery

This battery is a very high capacity battery with New Generation series 5000 advantages and features. Dual case, replaceable cells, small foot print and an expected life of over 10 years ...

Dual container construction, high-density polyethylene materials and unique "resistox" plate design provide a life expectancy that is among the longest in the battery industry.
