What is Qianyuan Smart Storage 20mwh?

The Qianyuan Smart Storage 20MWh system marked its first external exhibition debut at SNEC 2025, where a product launch event and certification ceremony were held. Adopting a modular integration design, the system achieves a single-container capacity of 20MWh and a design lifespan of 25 years, leading the global industry.

What is Gotion high-tech Qianyuan Smart Storage?

Gotion High-tech showcased multiple energy storage products, with its newly released Qianyuan Smart Storage 20MWh battery energy storage system making its first public appearance. During the exhibition, the system received letters of intent for orders from multiple partners.

How much does a liquid cooled container weigh?

The latest generation product has an energy density of more than 440 Wh/l, a roundtrip efficiency of 96%, and a cycle lifetime of nearly 16,000 charge-discharge cycles. The liquid-cooled system has a voltage range from 1500 V - 2000 V and is configurable for storage durations of two to eight hours. The container weighs around 55 tons.

How does the new energy storage platform break the constraints of fixed container sizes?

It is reported that the new-generation energy storage platform breaks the constraints of fixed container sizes by introducing a series of products: the 10-foot Flex version, 20-foot Class version, and 30-foot Plus version, with duration ranging from 2-hour to 12-hour.

As one of the sources of new-type energy storage technologies in China, Beijing has strong advantages in R&D innovation, product integration, and factor support, among ...

On May 16, Chinese company Gotion held the 2025 Global Technology Conference, where it introduced the Grid20MWh BESS 20MWh energy storage system. It is ...

Gotion High-tech showcased multiple energy storage products, with its newly launched Qianyuan Smart Storage 20MWh battery system making its global exhibition debut ...

Designed specifically for 4-8 hour long-duration energy storage applications, this product boasts advantages of "ultra-large capacity, ultra-long lifespan, ultra-high safety, and ...

The newly released Qianyuan Smart Storage 20MWh storage Battery system will be unveiled for the first time

at this exhibition. At the signing ceremony, the 20MWh storage Battery system ...

On May 16, Chinese company Gotion held the 2025 Global Technology Conference, where it introduced the Grid20MWh BESS ...

The future of energy storage in Beijing is not just about meeting immediate energy demands; it is about crafting a sustainable ...

Adopting a modular integration design, the system achieves a single-container capacity of 20MWh and a design lifespan of 25 years, leading the global industry. Its seven-tier ...

Designed specifically for 4-8 hour long-duration energy storage applications, this product boasts advantages of "ultra-large ...

Today, Gotion officially launched a new 20MWh single-cabinet battery energy storage system on its official channels.

Chinese multinational Envision Energy has unveiled the world's most energy dense, grid-scale battery energy storage system ...

A boom in battery storage has bolstered the demand outlook for lithium in 2026, driving hopes for an accelerated turnaround for an industry struggling with oversupply.
