Did solar energy systems explode in Beirut?

According to the state-run National News Agency, solar energy systems also exploded in homes in several areas of Beirut and the south, including Nabatieh. However, these reports remain singular and unconfirmed. Read more. Did solar energy systems really explode?

Can supply chains be used to sabotage Iran?

Getting into supply chains to sabotage operations is hardly new. American officials have done this in the past by intercepting power supplies headed to Iran to make the country's nuclear centrifuges spin, thus limiting its ability to produce fuel that could get diverted to weapons projects.

What happened at Beirut Medical Center?

Dr. Salah Zeineddine, the chief medical officer at the American University of Beirut Medical Center, said the attacks were "beyond any catastrophe" he had dealt with before. Nearly 200 patients were rushed into the hospital in just three hours on Tuesday after the first wave of explosions, quickly swamping it.
