-----

In Bulgaria, the storage of solar energy in batteries is rapidly expanding, with private investors leading the initiative.

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, ...

Bgaria will finance 82 standalone battery storage projects worth over 1.15 billion levs (\$675 million) under its EU-funded procurement exercise named RESTORE.

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system. The Bulgarian city of Lovech, ...

In a major step toward enhancing Europe's renewable energy infrastructure, SUNOTEC and Sungrow have signed a strategic agreement to deploy 2.4 GWh of battery ...

Bgaria will finance 82 standalone battery storage projects worth over 1.15 billion levs (\$675 million) under its EU-funded ...

The battery energy storage system is the first phase of a 315 MW/760 MWh system that is being developed alongside 238 MW of solar under Bulgaria's largest hybrid power ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, ...

A Bulgarian project for manufacturing batteries for energy storage has been granted strategic status under the European Clean Technology Initiative, the Ministry of Economy and ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution ...
