Discover how METLEN Energy & Metals is driving Chile's renewable future with large-scale solar power and energy storage projects.

Set to be built in seven phases in total, the Oasis de Atacama complex will comprise 2GW of solar PV and 11GWh of battery storage in total, presuming the entire project proceeds ...

Priority funding is directed toward integrated solar-plus-storage demonstration projects in the Atacama Desert, aiming to accelerate the energy transition in northern Chile. The Atacama ...

Developed by UK-based ContourGlobal, the Quillagua plant is expected to become one of Chile's largest solar and storage projects once fully operational. The installation ...

Developed by UK-based ContourGlobal, the Quillagua plant is expected to become one of Chile's largest solar and storage projects ...

From ESS News Solar and energy storage deployment is booming in Chile, spurred on by supportive government policy that has been markedly stable for 15 years.

Chinese companies have in recent years built, or announced plans to build, Chile's longest power line, solar plants and wind farms, while in battery storage, solar giant Trina has ...

The company's dedication to innovation and sustainability has positioned it as a leader in the renewable energy sector. In Chile, ...

This state-of-the-art facility, with its impressive daily output of 2,500 cubic meters of freshwater, is powered by a 10 MWh Battery Energy Storage System (BESS) Container.

California-based Nextracker, along with ENGIE Chile, in May announced an energy initiative called PV and BESS Libélula, which ...
