-----

Located in the Atacama Desert in northern Chile, this megaproject will have a total capacity of 2 GW of photovoltaic generation and 11 GWh of lithium-ion battery storage, ...

Grenergy has raised financing for the fourth phase of a solar-plus-storage project in Chile set to feature 11GWh of battery storage ...

The site, the first solar-plus-storage project built from scratch by Engie Chile, will feature 208 lithium-ion battery containers. Engie Chile wants 3.5 GW of installed energy ...

The project will consist of 245,560 solar panels capable of generating 151 MWp and 208 lithium-ion battery containers with a five ...

In March 2024, Atlas Renewable Energy announced it has signed a power purchase agreement (PPA) with Chilean mining giant Codelco for the supply of 375 GWh of energy per ...

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative ...

California-based Nextracker, along with ENGIE Chile, in May announced an energy initiative called PV and BESS Lib&#233;lula, which consists of a hybrid park of photovoltaic panels ...

The storage technology deployment is skewed towards battery storage, with lithium-ion being the preferred technology, accounting for 79 projects out of a total pipeline of 85 energy storage ...

The site, the first solar-plus-storage project built from scratch by Engie Chile, will feature 208 lithium-ion battery containers. Engie Chile ...

California-based Nextracker, along with ENGIE Chile, in May announced an energy initiative called PV and BESS Lib&#233;lula, which ...

The Chilean solar market is booming but as curtailment grows, a hybrid approach to generation is gaining ground. Storage project announcements are coming thick and fast as ...

The project will consist of 245,560 solar panels capable of generating 151 MWp and 208 lithium-ion battery containers with a five-hour discharge capacity, totaling 199 MW.
