SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect ...

CentumTM Force, a Cummins Power Generation containerized generator sets range, provide significantly shortened installation and commissioning time. The stackable design allows for a ...

SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source.

We're excited to expand this pillar with the addition of Centum(TM) Force, the next generation of containerized generator sets that establish new benchmarks in footprint optimization, layout ...

This article explores what containerization is, its benefits, and the applications of a genset container and reefer in various industries.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ...

Available for stock generator types or customized container options. Suitable for heat recovery, emission reduction, absorption chilling, heat rejection, and engine protection applications.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application ...

The durable and robust Containerized Series generator sets are ideally suited for independent power producer (IPP), mining, oil and gas, or any project where harsh conditions, challenging ...

Generators (Gensets) are used for powering refrigerated containers either on the ground or in transit. Working with the world's leading genset ...

The larger footprint of these units allows for more versatility from a manufacturing specification standpoint -- we can easily equip your gen set with greater levels of sound attenuation, a ...

Generator set containers can be divided into two categories: integrated containers with bases and base-free soundproof enclosures. Containers with bases can be arranged ...
