What is the weight capacity of Orbis FLC containers?

With a weight capacity of up to 900 kg, companies can transport more parts per bin and optimise space utilisation. Like most returnable plastic packaging, ORBIS FLC containers are 100% recyclable. At the end of a long service life, we offer to buy back obsolete containers and use the raw materials to produce new packaging products.

Are Orbis foldable large containers sustainable?

ORBIS foldable large containers offer sustainability- across the entire life cycle. That starts with the production of our FLCs: We use recycled materials during the manufacturing process which leads to a reduction of CO2 emissions. Due to their longevity and durability, our large collapsible containers are suitable for green logistics.

Are FLC containers stackable and collapsible?

For increased transport efficiency, our FLC containers are stackable and collapsible with a return ratio of up to 1 : 3. Our portfolio of large collapsible containers is available in European and American standard footprints. We also support our customers by developing individual, project-specific load carriers.

Are Orbis containers suitable for Green logistics?

Due to their longevity and durability, our large collapsible containers are suitable for green logistics. With a weight capacity of up to 900 kg, companies can transport more parts per bin and optimise space utilisation. Like most returnable plastic packaging, ORBIS FLC containers are 100% recyclable.
