A Swiss start-up has created a containerized movable PV system that is designed to be easily relocated to allow the use of solar energy in locations where a fixed installation is not an option.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ...

Each container is equipped with a photovoltaic array, a battery bank, and a generator -- all custom-sized to meet the specific needs of the customer. With integrated remote monitoring ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The ...

Types of our mobile solar constructions. We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual ...

ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel. With 23 patents, 5 global service hubs, and ...

Yes, we offer comprehensive after-sales support including remote monitoring, maintenance services and technical support. Our mobile photovoltaic containers come with a warranty and ...

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight
