Which frequency inverters are suitable for control cabinets?

No matter where you are in the world, our drives are your solution. We have developed the NORDAC PRO family of frequency inverters specifically for installation in control cabinets. These inverters are equally suitable for operating synchronous and asynchronous motors and meet all customer requirements thanks to a wide range of custom options.

How much power does a control cabinet inverter have?

Our inverters for control cabinet installation have a power range from 0.33 to 215 HP and can be customized with optional plug-in modules. Variable cooling solutions ensure optimum heat dissipation. Why Control Cabinet Inverters From NORD? High Performance NORD inverters for control cabinet installation provide high precision speed control.

How much power does a Nord control cabinet inverter have?

NORD control cabinet inverters have a power range of up to 215 HP and thanks to their wide range of functionality can be perfectly adapted to many customer applications. NORD Frequency Inverters already meet the requirements of energy efficiency classification IE2 of the new Ecodesign directive (EU) 2019/1781 (valid from 1st of July 2021).

Why should you choose a movidrive® drive inverter?

The compact design of the MOVIDRIVE® drive inverter saves space in the control cabinet, while its high user-friendliness ensures that you save time during parametrization, while the intelligent IPOS plus®; positioning and sequence control is included as standard.

Find your cabinet frequency inverter easily amongst the 48 products from the leading brands (NORD, SIEMENS, VEICHI, ...) on DirectIndustry, the industry specialist for your professional ...

Special frequency conversion control cabinet for ball mill: the operation panel displays normal data, the fan operates normally, the relay operates ...

We have developed the NORDAC PRO family of frequency inverters specifically for installation in control cabinets. These inverters are equally suitable for operating synchronous and ...

Featuring cutting-edge technology with high-voltage IGBTs, it uses NPC and HNPC topologies, along with flexible air and water cooling systems. It ensures high operational safety with ...

Synchronous switching function (optional synchronous switching cabinet): achieve undisturbed switching between power frequency operation and variable frequency operation of the motor, ...

This bypass cabinet is suitable for power plants, water plants, industrial and mining enterprises and other places, involving a voltage range of 3.6KV to 12KV, a frequency of 50 ...

Special frequency conversion control cabinet for ball mill: the operation panel displays normal data, the fan operates normally, the relay operates normally, no vibration, no peculiar smell. If ...

Reliable high voltage cabinet ESS with 50KWh to 225KWh capacity and 30KW to 100KW inverter for efficient solar energy storage.

Flexible, compact and intelligent: our MOVIDRIVE &#174; B drive inverters. They save space in the control cabinet and are equipped with integrated ...

Flexible, compact and intelligent: our MOVIDRIVE &#174; B drive inverters. They save space in the control cabinet and are equipped with integrated positioning and sequence control as standard.

Find your cabinet frequency inverter easily amongst the 48 products from the leading brands (NORD, SIEMENS, VEICHI, ...) on DirectIndustry, the ...

Our Single Phase or 3-Phase Inverters are designed to fit a wide range of applications or custom designed to fit unique requirements. Our High Power Converters are available in Single Phase, ...
