Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Shipping containers serve as an effective solution for Battery Energy Storage Systems (BESS) for numerous reasons. Primarily, they are significantly cheaper than constructing a new structure.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of land, we can drop your container. Now you ...

Our NIROPLANT and NIROSITE options show how you can use individual units, housed in standard 40-foot shipping containers, to create customized treatment plants with large capacities.

While container prices stabilized, the ripple effect continues. A standard 40HC container that cost \$3,500 pre-2023 now averages \$4,200 - and that's before adding solar components. Pro tip: ...

Introducing the latest option for mounting solar arrays to standard CONEX shipping containers. Our solar support structures enable 6-24 solar modules to be mounted on roof surface of ...

Mobil-Grid#174; 500+ solarfold is a 20 Feet ISO High Cube container, with CSC certification, which
