Is 5G coming to Dubai?

We are switching to 5G across the UAE this year, and our rollout will begin in Abu Dhabi and Dubai, with a nation-wide rollout following soon after. Will 5G replace 4G?

Why is 5G important in the UAE?

5G will help ensure that you are connected at all times, and that you are experiencing the fastest and most reliable network connectivity possible. For the UAE, 5G is the way forward toward a more innovative and sustainable future. How does 5G work? It's simple. 5G uses more frequencies than 4G for all data communications.

Where will Du 5G network be available?

The du 5G Network will be available initially in all the main landmark and downtown areas in both Abu Dhabi & Dubai. The 5G Network from du will also extend to selected locations in other Emirates before the end of the year. Shortly, du will publish the Digital maps showing the detailed coverage areas of our state of the art 5G Network.
