This guide helps water and wastewater utilities to be more resilient to earthquakes. It contains information on the following steps:

Ideal for governments and NGOs, these temporary housing containers ship flat to save 60% transport space, with modular bathrooms pre-wired for rapid field deployment.

Discover why a folding container house is the ultimate earthquake shelter. Learn about its durable, seismic-resistant design, rapid 10-minute installation, and versatile uses in ...

Our modular units offer complete, mobile solutions for efficient urban wastewater treatment. Based on the activated sludge process, these containers guarantee wastewater purification in ...

The ClearFox® Containerized System is a packaged wastewater treatment plant, custom designed and pre-installed within ISO shipping containers. As a modular solution, it is easily ...

Our containerized wastewater treatment plants are not only installed in hard-to-reach places abroad, but also offer the perfect solution for short-term, temporary wastewater treatment in ...

The system's proprietary fixed-film media (see inset picture at left) is fully submerged, allowing for a longer sludge age and higher tolerance of shock loads. The FAST® system comes available ...

Each unit is housed in a durable container, requiring minimal site preparation. A single 20-foot container can process sewage for small communities, work camps, or disaster relief zones.

Water and wastewater utilities are particularly vulnerable to earthquakes because of the extensive network of above and below ground pipelines, pump stations, tanks, administrative and ...

Niroplant and Nirosite are the ideal solution for decentralized water treatment plants, where ease of operation, lower capital costs, fast delivery and a modular approach are required. Our ...
