An emergency communication system is necessary for first responders, who need to enter areas with no network coverage or damaged network infrastructure due to n

We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment. The experimental results provide a sufficient data rate to make an independent ...

We propose a mechanism to deploy UAVs as aerial base stations to provide network connectivity, QoS support, and reliable communication in a flash crowd and ...

At the same time, unusual peaks in traffic load could lead to much higher blocking prob-ability for critical communication. A possible solution for such scenarios is through the use of mobile ...

Access to reliable communications services is a key factor in any emergency situation. ASTRI has succeeded in producing a mobile base station that allows for cost-efficient, low-latency, and ...

Find the plans, policies, and guidelines of the OIEC.

The base station carried by the movable platform can react to changes in the network in real time, allowing more flexibility and introducing a new degree of freedom for the emergency ...

BelFone BF-TR955 is a mobile base station designed for flexible DMR communication. Featuring high-power transmission, IP interconnect, and robust reliability, it ensures seamless coverage ...

We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment. The experimental results ...

We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment. The experimental results provide a sufficient data rate to make an ...

Emergency Communication Mobile Super Base Station
