Fiscal Year 2026 Budget Justification documents to support the Department of Energy Budget Request to Congress

The 418KWh Liquid-Cooled Energy Storage Cabinet is designed with an integrated system that includes batteries, BMS, EMS, PCS, and fire ...

Our newly launched liquid cooling energy storage system represents the culmination of 15 years" expertise in lithium battery storage innovation. This liquid cooling ...

The 418KWh Liquid-Cooled Energy Storage Cabinet is designed with an integrated system that includes batteries, BMS, EMS, PCS, and fire protection. It uses advanced liquid cooling ...

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan ...

To compete globally, we must expand energy production and reduce energy costs for American families and businesses. America must lead the world in innovation and ...

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced ...

The Battery Cabinet is an all-in-one energy storage solution featuring LFP (lithium iron phosphate) batteries, liquid-cooling technology, fire ...

With the pressing need for more American energy to meet the challenges of AI and secure our nation's energy dominance, President Trump's vision for a revitalized U.S. nuclear ...

The U.S. Department of Energy (DOE) today announced over \$320 million in investments to rapidly advance the Genesis Mission's artificial intelligence (AI) capabilities.
