Estonia's Energiasalv has secured EUR 11 million (USD 12m) in additional financing for its 500-MW/6-GWh pumped hydro energy storage project, including strategic investments from ...

Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru ...

Actually, Estonia's grid isn't just aging; it's fundamentally mismatched for decentralized renewables. The Tallinn project's real innovation lies in its modular BESS (Battery Energy ...

The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of ...

Estonia is launching a major 300 MW solar-plus-storage project in Ida-Viru County, transforming a former quarry to boost renewable energy and energy independence.

Estonia is making substantial investments in wind, solar, and energy storage technologies, with a goal of achieving carbon neutrality by 2050. To support this transition, Estonia is modernizing ...

Construction has begun in Estonia on two energy storage facilities with a total capacity of 200 MW and 400 MWh. On Thursday, a symbolic groundbreaking ceremony took ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

The Raba Storage Project is part of Sunly's broader strategy to add 1000 MWh of battery storage capacity to the Baltic grid by the end ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in ...

Estonia s new energy is strongly equipped with energy storage
