Livguard Lithium-Ion batteries deliver superior performance with high energy density, fast charging, and long-lasting durability. Engineered for efficiency, they enhance range and ...

Two-wheeler LiFePO4 batteries for e-scooters & e-motorcycles--fast charge, long life, high power; smart BMS (CAN/RS485); UN38.3 certified.

Our Two-Wheeler portfolio consists of high-quality packs either in LFP and NMC cells. Our wide portfolio comes in different voltages and capacities ranging from 24V-72V and 7Ah-100Ah, are ...

In this study, a new fast-charging approach is investigated to decrease battery temperature variance, shorten charging time, and improve charging efficiency.

With the increasing shift towards sustainable transportation, electric two-wheelers are becoming the preferred mode of urban mobility. At ...

In partnership with Greenway Technologies, we develop high-performance LFP and LMFP battery packs tailored for EVs, solar systems, and energy storage--engineered and manufactured ...

CATL "s 280Ah LiFePO4 (LFP) cell is the safest and most stable chemistry among all types of lithium ion batteries, while achieving 6,000 charging cycles or more.

With the increasing shift towards sustainable transportation, electric two-wheelers are becoming the preferred mode of urban mobility. At Aetherion Renewables, we develop high-performance ...

This guide will walk you through the most common lithium two-wheeler battery types, their advantages and limitations, and why a tailored battery pack often delivers the best ...

Our Two-Wheeler portfolio consists of high-quality packs either in LFP and NMC cells. Our wide portfolio comes in different voltages and capacities ...
