Why do we need solar power in Fiji?

By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean renewable solar energy for generations to come, thereby reducing Fiji's reliance on expensive and polluting diesel generation for electricity.

What are the different types of energy solutions in Fiji?

Delivering secure, cost-effective hybrid and utility grade power solutions, for today and the future. Our specialities in Fiji include Solar Energy, Renewable Energy, Hybrid Energy, Distributed Generation, Energy Storage, Off-Grid Energy, Remote Communities, HV, Substations, Grid Connections, Battery Energy Storage Systems (BESS), and Microgrid.

What is EPC solar doing in Fiji?

Indigenous-owned EPC Solar said the projects are part of a pipeline of more than 40 potential installation sites in Fiji which is targeting 100% renewable energy by 2036. The company also plans to expand its operations into New Zealand and then other Pacific nations - islands it says will bear the brunt of climate change and rising sea levels.

Why do organisations in Fiji switch to solar energy?

Organisations in Fiji choose to go solar for their energy for a variety of reasons, including financial, environmental, and strategic benefits. One of the primary reasons organisations in Fiji switch to solar energy is to save money on their energy bills.

In early 2021 VES proudly launched a pilot solar project with Fiji Ports Corporation Limited. We installed a preliminary solar PV system atop an ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean renewable solar energy for generations to come, thereby reducing Fiji's reliance on ...

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.
