KMB Design Group is at the forefront of the escalating solar industry, and is considered a leading consulting firm in the renewable energy field providing photovoltaic design and engineering ...

During a consultation, expect a comprehensive analysis of energy usage, site conditions, product recommendations, and financial options. Prepare questions to maximize understanding, ...

Learn how to ensure seismic safety for shipping container structures. Discover building codes, earthquake-resistant designs, anchoring methods, and case studies to protect your container ...

Our team specializes in designing earthquake-resistant solar-plus-storage systems tailored to your geographical risks and energy needs. Whether you're safeguarding a home, ...

We work with clients across the country, providing full-service due diligence services, from feasibility analysis and design through to implementation, optimization, and ...

Best of all, our consultation and site assessment are completely free--no strings attached. We're here to help you explore your energy options, answer your questions, and determine the best ...

NFPA is undertaking initiatives including training, standards development, and research so that various stakeholders can safely embrace renewable energy sources and respond if potential ...

They can help you understand and meet the specific building codes and regulations in your area, ensuring that your container home is earthquake-resistant and safe.

This article examines the role of solar containers in earthquake response, their deployment benefits, and field deployments of how they provide clean and reliable power ...

Our team specializes in designing earthquake-resistant solar-plus-storage systems tailored to your
