Are FLEXcon containers collapsible?

Consistent inside dimensions at the top and bottom of the containers allow even multiple layer dunnage to be easily installed and removed. Custom requests and dealer inquiries welcome. Reduce costs with Flexcon's collapsible containers. Our durable, reusable totes collapse flat to save on return shipping and reclaim valued warehouse space.

What are cold storage containers & refrigerated trailers?

Our cold storage containers and refrigerated trailers ensure the safe preservation of temperature-sensitive goods, whether on-site or in transit. Available in various sizes and power options, our units feature remote temperature monitoring for reliable climate control wherever you need it.

Why should you choose a thermocontainer?

Made of resistant EPS and robustly constructed, the thermo container offers high stability and is particularly suitable for the storage and transportation of medical products or perishable goods. Thanks to the flexible sizes and individual adaptations, the Thermocontainer can be tailored to specific requirements.

How big is a cold storage container?

Cold storage containers are 8 feet wide and vary in length from 10 to 40 feet, while reefer trailers are available in lengths from 36 to 53 feet. WillScot has more than 250 locations across North America to serve you. Cold Storage Containers fully equipped, right from the start. Check out our range of ready-to-go cold solutions.
