-----

The launch of the Blue Marlin is a significant step forward in cargo ship technology. The Blue Marlin's use of solar energy will ...

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar-powered inland vessel as part of an ...

Imagine a revolutionary vision of the maritime industry: autonomous, solar-powered container ships that blend cutting-edge engineering with environmental stewardship. ...

Amid growing global pressure to reduce maritime carbon emissions, this "sun-powered" bulk carrier undoubtedly injects a beam of clean and steadfast sunlight into ...

In addition to its advanced solar power capabilities, the vessel features a powerful diesel-electric, future-fuel-ready drive concept.

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar ...

As a pioneer in "solar power for shipping", Wattlab provides fully integrated solar products tailored for both seagoing and inland vessels - ...

As the global shipping industry faces mounting pressure to cut emissions and embrace clean technologies, this revolutionary vessel blends solar energy, advanced battery ...

In a groundbreaking shift towards sustainable maritime transport, the Blue Marlin debuts as the world's first inland vessel to ...

The launch of the Blue Marlin is a significant step forward in cargo ship technology. The Blue Marlin's use of solar energy will significantly cut down the amount of ...
