Whether you need Littelfuse,Mersen,Bussmann,GE,Gould,or Ferraz Shawmutfuses,we are your online source for a large variety of North American electrical fuses.

What types of fuses do you work with?

We work with medium and high voltage fusesfor protection of transformers,including submersibles,motors,medium and high voltage switchgear,compact substations,cable feeders, and high voltage capacitor circuits. New: Full line of ESS and PV UL Listed fuses and fuse holders.

Why is there a demand for quality electrical fuses in North America?

The demand for quality electrical fuses in North America continues to increase due to construction,automotive and technological advancements. As demand increases, generic or counterfeit fuses have come on the market. At National Fuse Products,we stand behind each product and guarantee that it is an original from the manufacturer.

How does a fuse work?

A fuse works by using a metal link designed to melt when it reaches a specific temperature due to electrical heat. When an overcurrent or short circuit occurs,the excess heat causes the fuse link to melt,breaking the circuit and stopping the flow of electricity.
