By harnessing the sun's energy, solar power systems provide a reliable, cost-effective, and environmentally friendly solution to meet the energy needs of shipping container homes.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

By pairing solar projects with energy storage, you can store electricity produced from your solar panels for future use. In recent years, ...

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container.

But the solar battery market is rapidly evolving, and small, modular battery systems that can recharge from portable solar panels have become popular since we first wrote this ...

Detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container. Use to build your own system ...

When the grid is hundreds of feet away (or non-existent), a self-contained power solution is ideal. For instance, specialized units like the LZY-MS1 Sliding Mobile Solar ...

We're converting two shipping containers into an off-grid home! Each unit includes solar power, battery storage, water & septic-ready setup, and modern finishes.

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also ...

By pairing solar projects with energy storage, you can store electricity produced from your solar panels for future use. In recent years, residential energy storage systems have declined in ...
