Diconelec spearheads five new solar power and battery storage projects in Honduras, totaling 120 MW. Learn about the portfolio ...

Six separate companies have submitted bids to build the 4-hour BESS project, and it will be implemented next year after evaluation and award phases are completed, Carbajal said.

This project is expected to begin operations by the end of 2025, allowing energy to be stored during the day and then injected into the grid during peak consumption hours, which ...

The project, a national key initiative of Honduras, will significantly enhance the stability of Honduras' power grid and its capacity to integrate renewable energy upon ...

This project, selected through an international tender with six proposals, will be the largest energy storage system in Central America once operational by the end of 2025.

La Empresa Nacional de Energía Eléctrica ha seleccionado en una licitación internacional a un consorcio chino-hondureño para el ...

Honduras announces a tender for the installation of an energy storage system with batteries (BESS) at the Amarateca substation, aiming to improve electrical supply stability.

The 10kWh battery is a DC coupled battery system that is more suitable for your upcoming solar system installation with higher conversion efficiency. To give you peace of mind that you're ...

La Empresa Nacional de Energía Eléctrica ha seleccionado en una licitación internacional a un consorcio chino-hondureño para el estudio, diseño, suministro, instalación, ...

The National Electric Power Company (ENEE) has selected a Chinese-Honduran consortium to design, supply, install, test, and commission a grid-connected battery energy ...
