The 261kWh liquid-cooled battery energy storage system (BESS) provides commercial and industrial users with an efficient and intelligent energy management solution.

This outdoor battery cabinet incorporates advanced liquid cooling technology. With its high level of system integration, it offers easy installation and ...

The eFlex 836kWh system is designed to fit into even the most compact spaces. With an energy density of 98.4kWh/m³; and a ...

elevations up to 3000 meters (9843 feet) above sea level. Includes enhanced safety features for fire suppression and thermal management. This white paper outlines the ...

The eFlex 836kWh system is designed to fit into even the most compact spaces. With an energy density of 98.4kWh/m³; and a footprint of just 3.44m², it offers a high-performance solution that ...

The GSL ENERGY BESS-372K is a 372kWh, 1331V liquid-cooled battery storage cabinet developed for commercial and industrial energy storage applications across the USA and ...

Max-Pro & Max-Classic C& I Outdoor Liquid-cooling Energy Storage Cabinet 262 kWh Small size, big energy: Occupying 1.28 square meters, with 21% greater energy density.

This guide explores the benefits, features, and applications of liquid-cooled energy storage cabinets, helping you understand why they ...

With a maximum capacity of 372kWh, these liquid-cooling battery cabinets are designed to handle demanding energy requirements while ensuring optimal performance and ...

This outdoor battery cabinet incorporates advanced liquid cooling technology. With its high level of system integration, it offers easy installation and enhanced efficiency.
