Are Huawei & Sungrow leading the global inverter market?

"Huawei and Sungrow ranked first and second in the rankings for the 10th consecutive year, combining for 55% of the global inverter market." Total global inverter shipments reached 589 GW (AC) in 2024, up 10% from 2023.

What is the global PV inverter market share?

Global PV inverter shipments grew by 10% to 589 gigawatts alternating current (GWac) in 2024, according to Wood Mackenzie's Global Solar Inverter Market Share Report 2025. The research placed Huawei and Sungrow in the first and second positions in the rankings for the 10th consecutive year, together accounting for 55% of the global inverter market.

What is Huawei vs Sungrow?

"Huawei delivered 176 GWac of PV inverters and extended its global lead with strong performances in China, Europe, Latin America and Africa. Sungrow delivered 148 GWac, ranking behind Huawei in China and Europe, but leading in the US and in the rapidly growing markets of India and the Middle East."

Which PV inverter suppliers are based in China?

Nine of the top 10 PV inverter suppliers are based in China. Huawei and Sungrow retained the top two positions for the 10th consecutive year, together accounting for 55% of the global market. Both companies achieved their highest ever market shares in 2024, said Joseph Shangraw, research associate at Wood Mackenzie.
