These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Our products have been exported to more than 60 countries and have multiple certifications in these countries, including CE, CSA,UL, and TUV series certificates. Our solar power system ...

Mobil-Grid[®] 500+ solarfold is a 20 Feet ISO High Cube container, with CSC certification, which integrates a plug and play pre-wired deployable and redeployable solar plant

Among the most scalable and innovative solutions are containerized solar battery storage units, which integrate power generation, storage, and management into a single, ...

We are actively driving the evolution towards emission and noise compliant power solutions at worksites. The mobile solar container range redefines on-site power by harnessing the sun's ...

Engineered to support both wind and solar energy, this outdoor system offers a high-capacity storage of up to 5 MWh, making it ideal for large-scale energy needs. Equipped with advanced ...

Equipped with automatic fire detection and alarm systems, the 20FT Container 250kW 860kWh Battery Energy Storage System is the ultimate choice for secure, scalable, and efficient energy ...

The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
