---

The largest integrated photovoltaic and energy storage project in Indonesia, designed and constructed by China Yongfu Power, has officially landed, setting a new ...

Indonesia's state-owned utility, PLN, in collaboration with renewable energy company Sembcorp, will develop the country's first co-located solar photovoltaic (PV) and ...

With the successful deployment of this photovoltaic and energy storage system, the project not only paves the way for a greener future in Indonesia but also demonstrates the scalability of ...

Operated by the village cooperative Merah Putih, these solar-plus-storage mini grids aim to provide affordable, reliable power while reducing dependence on costly diesel ...

These solar-plus-storage mini grids are set to be installed in 80,000 villages across Indonesia and will be managed and operated by village cooperative Merah Putih. The initiative ...

A new 50MW solar-plus-storage plant near Indonesia's new capital city, Nusantara, on the island of Borneo, has been opened.

Indonesia's state-owned utility, PLN, in collaboration with renewable energy company Sembcorp, will develop the country's first co ...

The NSSE Power Plant, built on approximately 87 hectares of land, is the first utility-scale integrated solar and energy storage project in Nusantara, Indonesia.

Indonesia will build a 100 Gigawatt (GW) Solar Power Plant (PLTS). The program plans to build 80 GW of solar power plants and 320 GWh of Battery Energy Storage System ...

Operated by the village cooperative Merah Putih, these solar-plus-storage mini grids aim to provide affordable, reliable power while ...
