Romanian transmission system operator Transelectrica has announced a tender for a battery energy storage project with a 35MW power output and 70 MWh storage capacity. [pdf]

Energy storage is a "force multiplier" for carbon-free energy. It allows for the integration of more solar, wind and distributed energy resources, and increases the capacity factor of existing ...

Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar infrastructure with Sungrow's ...

Have a technical advisor with previous experience in either a combined project for production and storage or standalone storage project with capacity of at least 20 MW;

With the establishment of a large number of clean energy power stations nationwide, there is an urgent need to establish long-duration energy storage stations to absorb the excess electricity ...

In cooperation with the start-up Africa GreenTec, TESVOLT is supplying lithium storage systems for 50 solar containers with a total capacity of 3 megawatt hours (MWh), enabling a reliable ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

Will the answer to these questions bring back lead-acid batteries for stationary energy storage because of the large lead deposits, simple production technology and their almost complete ...

Station Layout: Within the energy storage power station, office, accommodation, and duty areas should maintain necessary safety distances from battery prefabricated modules, with a ...
