How do I select a charging station?

Selecting an individual station displays the name of the charging host, address, and contact information. Most of the stations also include charging rate information (AC Level 1, AC Level 2, or DC Fast Charge), number of charging ports, and hours of accessibility. Private and planned stations can be displayed by selecting "more search options."

How do I find the right EV charging station?

Use the charging map to find the right EV charging station for you from the largest global EV charging network. Charging at a ChargePoint or roaming partner station in the world's largest EV charging network is easy, affordable and convenient. Find and filter the right station near you in the app. Drive up, plug in and enjoy the amenities nearby.

How do I charge my EV?

Charging at a ChargePoint or roaming partner station in the world's largest EV charging network is easy, affordable and convenient. Find and filter the right station near you in the app. Drive up, plug in and enjoy the amenities nearby. Unplug when you get notified that you're done charging. Go about the rest of your day. It's that easy.

What is a Level 2 EV charging station?

Level 2 charging stations allow EV owners to charge their vehicles while parked at home, at work, or on the street. DC fast chargers offer a charging experience comparable to a gas station. Charging an EV can be a challenge in New York City. Many people park their cars on the street and do not have access to a home charger.

Purchase a charging station and arrange installation, ideally before delivery of your car. Check with your local utility provider as they may offer incentive programs for rebates and rewards.
