As we approach Q4 2025, industry watchers are keeping tabs on Latvia's first gigafactory for battery cells. When operational, it'll slash import costs by 60% and create 800+ skilled jobs.

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, ...

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

Greensun is pleased to announce the successful shipment of a 20ft containerized energy storage system to a client in Latvia. The system is a fully integrated solution, ...

In Latvia, an increasing number of households, industrial and commercial enterprises are adopting solar or backup power solutions. With its factory-direct pricing, high efficiency, long lifespan, ...

These container energy storage systems are ideal for demanding applications where other sources might be inefficient or unpredictable. All this is possible making operations easy ...

With wind and solar capacity growing rapidly, the need for flexible storage solutions has never been greater. Let's unpack how collaboration models are shaping this sector.

Latvia's port city of Liepaja is fast becoming a strategic location for power generation container manufacturers, blending industrial expertise with renewable energy innovation.

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

Optimized for mid-size factories, desert solar farms, and hybrid grid substations. With 140kW solar and 215kWh battery in a 40ft container, it handles heavier industrial loads in harsh outdoor ...
