-----

Estonian renewable power and heat producer Utilitas has inaugurated Latvia's first utility-scale battery energy storage system (BESS), featuring a capacity of 10 MW and 20 MWh.

In Latvia, an increasing number of households, industrial and commercial enterprises are adopting solar or backup power solutions. With its factory-direct pricing, high efficiency, long lifespan, ...

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The ...

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The importance of these technologies is being ...

Latvia's transmission system operator, JSC "Augstsprieguma tīkls" (AST), has received its first shipment from Italy. Rolls-Royce Solutions GmbH has delivered inverters and ...

The delivery includes inverters and battery control equipment for a battery energy storage system (BESS), one of the most powerful in the European Union. The system, with a ...

Latvian power storage manufacturers are reshaping Europe's renewable energy landscape with cutting-edge battery systems and grid stabilization technologies. Discover how these solutions ...

In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage system (BESS) last ...

In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage system (BESS) last week (1 November) in Targale, a village in Latvia's ...

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a ...

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 ...

Once operational, it will be among the most advanced hybrid renewable facilities in Latvia. The storage system is designed to support grid stability, balance electricity supply and ...
