As we approach Q4 2025, industry watchers are keeping tabs on Latvia"s first gigafactory for battery cells. When operational, it"ll slash import costs by 60% and create 800+ skilled jobs.

In November 2024, Utilitas Wind Ltd inaugurated Latvia"s first storage battery system with a capacity of 10 MW and 20 MWh in Targale, ...

SUNOTEC, the Bulgarian-German renewables specialist best known for building utility-scale PV parks across Europe, has taken full control of the 400 MWp Lazas Solar Park ...

On November 1 Latvia"s largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a ...

Latvian energy storage projects are gaining momentum as the country accelerates its transition to renewable energy. This article explores key players, emerging technologies, and market ...

Powering a Sustainable Future with Precision and Innovation: At our cutting-edge 100 MWh battery plant, we are going to create advanced battery modules and intelligent management ...

A detailed solar panel manufacturing plant cost breakdown reveals the significant capital required for such utility-scale ventures. The Latvian government is fostering this growth ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

On November 1 Latvia"s largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 ...

In November 2024, Utilitas Wind Ltd inaugurated Latvia"s first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.
