How much do solar roof tiles cost in the UK?

Solar tiles in the UK cost between £11,000 - £13,500 for the average 2-3 bedroom home while regular solar panels can cost between £6,600 - £8,100. The biggest appeal of solar roof tiles is their aesthetically pleasing design. They blend in with the design of your roof and, therefore, won't disrupt your house style.

Who makes GB Sol solar tiles?

GB Sol Solar Tiles, a UK-based manufacturer, specialises in PV Slate. It's designed to blend with slate roofs to preserve the charm of classic homes. GB Sol offers its products with a 25-year warranty. Manufactured in Wales, these weather-resistant tiles are a cost-effective and locally produced choice.

What are solar roof tiles?

Put simply, solar roof tiles are solar panels that look like roof tiles. They convert energy from the sun into usable electricity with the help of photovoltaic cells. Much like solar panels, they comprise semi-conducting materials that generate an electric charge and send it to an inverter and eventually a home and/or solar battery.

Which solar tiles are best?

GB Sol offers its products with a 25-year warranty. Manufactured in Wales, these weather-resistant tiles are a cost-effective and locally produced choice. XO Edge Solar Tiles, manufactured in London and made from recycled plastics, are among the lightest on the market and boast aerospace-grade UV resistance and durability.

Archi-Tectonics has completed the London Solar Townhouse in the UK. This home combines minimalist design with sustainable features, such as photovoltaic panels. Inside, the ...

The New York-based design studio captured the unique historical essence of the existing structure, a two-story masonry construction, and the intimate ...

These solar tiles, seamlessly integrated into the natural slate roof, were designed to capture solar energy without compromising the aesthetic appeal of the building. Unlike bulky ...

At SolarTyle, we redefine solar energy solutions by combining cutting-edge solar tile technology with seamless architectural design, ensuring both efficiency and elegance for your projects.
