How much do solar panels cost in Mexico?

Solar panels in Mexico cost an average of \$3.07 per watt, and we expect this to decrease further as the development of solar projects becomes more commonplace. The Government of Mexico (GoM) has also helped to support the development of solar generation across the country, taking advantage of Mexico's average of 300 days of sunshine a year.

Is Mexico a good place to install solar panels?

Mexico is well suited for residential rooftop solar installations, and we expect the market to grow by roughly 10% to 15% annually through 2025. With the high cost of electricity, many are being encouraged to convert their systems to solar. This can also help tackle the uncertainty of blackouts in regions that have a higher risk of power outages.

How can I lower the cost of solar panels in Mexico?

Pro Tip: You can lower the cost of solar panels in Mexico by tapping into government incentives, exploring tax deductions, or choosing affordable panels from local manufacturers. Curious where your money goes? Here's a closer look at the components of a typical solar installation (based on a 5-10 kW system):

Can you get low-cost solar power in Mexico?

Contact us to learn more about accessing low-cost solar power in Mexico. Savings from on-site solar can range between 20% and 40% with no upfront costs. Contact us today. The market is favorable for solar energy projects thanks to low equipment costs, strong renewable energy policies, and several national solar power programs.

Solar panels in Mexico cost an average of \$3.07 per watt, and we expect this to decrease further as the development of solar becomes more commonplace.
