Sunwoda Energy has recently unveiled the Sunwoda MESS 2000, the world's first 10-metre-class mobile energy storage system vehicle with a 2 MWh energy storage capacity.

Designed for speed and efficiency, the Charge Qube can be rapidly deployed without the need for complex planning or infrastructure upgrades. Housed within a durable 10-foot sea container, it ...

Achieves >95% round-trip efficiency (RTE) and 12,000+ cycles, ideal for renewable energy storage and shared grid applications. Enables 5MWh capacity in a 20-foot container, reducing ...

Designed for speed and efficiency, the Charge Qube can be rapidly deployed without the need for complex planning or infrastructure upgrades. Housed ...

Stepping out of the "comfort zone," the mobile energy storage vehicle from Xinwangda traveled over 5,000 kilometers to make its debut at the ESIE 2025 International ...

Battery pack maker Felten has announced the debut of its new mobile energy storage product, the Charge Qube. The Charge Qube is a rapidly-deployable, modular mobile ...

Sunwoda Energy's mobile energy storage initiatives and product ecosystem underscore its unwavering commitment to advancing the global energy transition. By ...

With a large capacity of 2 MWh, this vehicle offers ample storage to meet the demands of various industries. Equipped with six new energy vehicle charging guns, it allows ...

Interested in the latest mobile battery energy storage trends? Check out these 3 new MBESS use cases discussed at Bauma 2025.

With a large capacity of 2 MWh, this vehicle offers ample storage to meet the demands of various industries. Equipped with six new ...
