Does Myanmar have an electric vehicle industry?

Once in its infancy, Myanmar's electric vehicle (EV) industry is steadily developing. The National Level Electric Vehicle and Related Industry Development Steering Committee released an updated list featuring 87 licensed companies as of May 2025.

How to estimate the total energy consumption of Myanmar industries?

At the national level, this will also need the total production of the sub-sector to estimate its energy consumption. In conclusion, the national production or gross value added of the sub-sector is very important in estimating the total energy consumption of Myanmar industries. The parking lot survey was conducted in several areas of Yangon.

Is Myanmar a hotspot for electric mobility?

This development provides a clear indication of interest for foreign investors: Myanmar's EV market is no longer nascent. With clear regulatory frameworks, increasing private sector participation, and government support, Myanmar is fast becoming a regional hotspot for electric mobility and supporting industries. Newly Joined Companies in 2025

Is Myanmar's EV market nascent?

The latest additions emphasize critical pillars of Myanmar's green mobility agenda, including charging station development and e-bus services. This development provides a clear indication of interest for foreign investors: Myanmar's EV market is no longer nascent.
