NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery energy storage ...

Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, signifying the African country's dedication to modernising its energy ...

Namibia has reached a major milestone in its renewable energy journey with the arrival of the first shipment for the Omburu Battery Energy Storage System (BESS) Project, ...

The Erongo Battery Energy Storage System, also Erongo BESS, is a planned 58 MW (78,000 hp) battery energy storage system installation in Namibia. The BESS, the first of its kind in the country and in the Southern African region, will be capable of providing 72MWh of clean energy to the Namibian grid.

NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery energy storage system (BESS) in the country and ...

Namibia Power Corporation (NamPower) has selected a Chinese team of Shandong Electrical Engineering & Equipment Group Company and Zhejiang Narada Power Source Company to ...

Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, signifying the African country's dedication to modernising its energy infrastructure, ...
