What is an uninterruptible power supply?

industrial UPS manufacturers & Installers An uninterruptible power supply, also uninterruptible power source, industrial UPS or battery/flywheel backup, is an electrical apparatus that provides emergency power to a load when the input power source or mains power fails.

How long does a dynamic uninterruptible power supply last?

The on-battery run-time of most uninterruptible power sources is relatively short (only a few minutes) but sufficient to start a standby power source or properly shut down the protected equipment. Dynamic uninterruptible power supply (UPS) systems demand calibrations customised to your customer's power output and transient response requirement.
