-----

With advanced lithium-ion battery technology and intelligent control system, our eBESS battery container offers a scalable and modular energy storage solution that is easily expandable as ...

Kongsberg-based Nordic Batteries will deliver state-of-the-art battery modules and packs of various sizes, battery management systems, and temperature control technology to Eldrift and ...

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are CATL brand, whose LFP chemistry packs 1 ...

Norway's government subsidy for mobile solar containers has unlocked a surge in demand for portable renewable solutions. With 40% upfront cost coverage under the \*EnergiX Fund\* and ...

Ultra high power 19" battery pack produced in Norway from norwegian battery cells. Complete with integrated BMS-system and cooling. eCUBE is a 10ft container with CCS2 ...

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are ...

Picture lithium batteries as the Swiss Army knives of energy storage - compact, versatile, and surprisingly powerful. In Oslo's context, they're the backbone of systems storing ...

Whether for EVs or energy storage, Norway has always had ideal conditions for battery growth: renewable energy in the form of hydropower, strong government financial ...

Nordic lithium battery production demands go beyond standard solutions. From frost-resistant components to circular production flows, customization isn't optional - it's the key to ...

And in addition to better storage for solar power, higher efficiency also comes with a faster rate of charge for lithium-ion batteries. They can handle a higher amperage from the charger, which ...
