What are the best solar lights for your outdoor space?

The best solar lights for your outdoor space depend on where you want more light at night. The Alepod Solar Pathway Lights are our all-time-favorite for illuminating pathways, and the Better Homes & Gardens Nico Solar Powered LED Deck Post Cap Light is great for gathering areas, like decks and patios.

Which solar lights are best for illuminating pathways?

The Alepod Solar Pathway Lights are our all-time-favorite for illuminating pathways, and the Better Homes & Gardens Nico Solar Powered LED Deck Post Cap Light is great for gathering areas, like decks and patios. We tested solar lights at home to see how they held up to regular use.

Does Norway have zero-energy buildings?

In regard to Norway, the country has been long known as a pioneer in zero-energy buildings. These structures feature zero net consumption of renewable energy, while energy-positive buildings generate more than they use -- and feed it back into the grid.

Can a solar lantern light a house?

But my solar gear (including an inflatable lantern, string lights, flameless candles, path lights, and a power bank that doubles as a lantern) can still scrape together enough sunlight each day to stay lit in the evenings. I've tested a multitude of options, and these are my favorite ways to harness the sun's rays to light your home.
