Who supplies Palestinian electricity?

The Israel Electric Corporation (IEC) supplies most of the electricity in the Palestinian territories. PETL is the sole buyer of imported electricity for distribution in West Bank Areas A and B and in the Gaza Strip, which in turn supplies the electricity to the six Palestinian distribution companies.

How much energy does Palestine need?

Palestinian energy demand increased rapidly, increasing by 6.4% annually between 1999 and 2005. Future consumption of electricity is expected to reach 8,400 GWh by 2020 on the expectation that consumption will increase by 6% annually.

What is the future consumption of electricity in Palestine?

Future consumption of electricity is expected to reach 8,400 GWh by 2020 on the expectation that consumption will increase by 6% annually. The Palestinian Electricity Transmission Company (PETL), formed in 2013, is currently the sole buyer of electricity in the areas under Palestinian Authority (PA) control.
