From remote village microgrids to solar hybrid systems for institutions and industries, Cetelnet designs, installs, and supports clean energy systems ...

From remote village microgrids to solar hybrid systems for institutions and industries, Cetelnet designs, installs, and supports clean energy systems that empower communities and reduce ...

Drawing on successful off-grid electrification models from Bangladesh, India, East Africa, and the Pacific Island, this paper proposes policy recommendations to enhance the sustainability and ...

Prime Minister James Marape has hailed the successful implementation of an off-grid solar project that is improving the lives of ...

TAG Energy has a long history with renewable and solar energy in Papua New Guinea and the Pacific region. Since 2013, we have implemented numerous projects, starting with our first ...

Discover how Papua New Guinea is embracing solar power to electrify rural communities. Learn about key government projects, sustainability goals, and the future of ...

Whether your project is 5kW for your house or 5MW for a solar farm, our Certified Solar Energy Systems Design team is ready to assist-- contact us today to get started. Whether you ...

Explore the solar photovoltaic (PV) potential across 9 locations in Papua New Guinea, from Wewak to Port Moresby. We have utilized empirical solar ...

o Baluan Island leads the way in off-grid solar energy adoption in PNG. o 100kW solar panels and 215kW battery storage provide reliable power. o Project serves as a scalable model for rural ...

Discover how Papua New Guinea is embracing solar power to electrify rural communities. Learn about key government projects, ...

Explore the solar photovoltaic (PV) potential across 9 locations in Papua New Guinea, from Wewak to Port Moresby. We have utilized empirical solar and meteorological data obtained ...

With a global shift towards green renewable energy, the SolSol project aims to pioneer the implementation of solar-powered minigrids for rural communities in PNG.
