What is the difference between Pozzo robust and Pozzo power?

The Pozzo Robust and Pozzo Power are two specially adapted luminaires designed to meet higher demands. The Pozzo Robust is IK 10 rated and is mounted with safety screws to prevent access and disassembly in environments with higher demands on safety. Available in size Ø 470 mm.

What is a Pozzo ceiling?

Pozzo is like a small piece of sky, a lightwell effect that brings a daylight feel into all types of rooms. Drawing inspiration from natural light, a pleasant daylight feel is created, and the classic round shape and bevelled edge produces a soft luminance transition to the ceiling.

Does the Pozzo power have a spotlight?

The Pozzo Power has a separate spotlight that can be turned on and off as required, making the luminaire useful as an examination light in a medical setting or as directional lighting above surfaces and objects. Available in size Ø 445 mm.

How many lumens does a Pozzo have?

All models are available in two different lumen packages, 3000 or 4000 kelvins with CRI 80/90 colour rendering, Tunable White and Amber. <p>Pozzo is like a small piece of sky, a lightwell effect that brings a daylight feel into all types of rooms.
