We provide operation and maintenance services (O& M) for solar photovoltaic plants. These services are provided by a team of world-class operators with support from AES El Salvador.

We contribute approximately 25% of the solar energy produced in the country. Year AES began operating in the country. We implement ongoing programs that create shared value for ...

We contribute approximately 25% of the solar energy produced in the country. Year AES began operating in the country. We implement ...

At Solarvance, we are committed to supporting El Salvador's renewable energy goals with durable, efficient solar solutions designed to thrive in the country's tropical environment.

a tropical city where solar panels dance with Caribbean breezes while energy storage systems hum lullabies to lithium-ion batteries. Welcome to San Salvador's clean ...

El Salvador's solar energy capacity has surged 160-fold from 2015 to 2023, driven by over 60 solar farms, significant investments, and improved technology facilitating growth in ...

As countries around the world shift towards renewable energy sources, El Salvador is gradually increasing its solar and wind energy capacity. While the progress is ...

Major commercial projects now deploy clusters of 15+ systems creating storage networks with 80+MWh capacity at costs below \$270/kWh for large-scale industrial applications. ...

AES' Meanguera del Golfo solar plant--the first of its kind in Latin America--relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to ...

Discover how new solar and wind projects are transforming El Salvador's energy landscape, reducing fossil fuel dependency and ...
