Combining photovoltaic solar with a storage system is a unique solution to meet the current and future needs of the grid. In order to complement and intensify our local impact, Walo Storage is ...

This innovative project, led and financed exclusively by African stakeholders, marks a major milestone in the development of renewable energy in ...

Axian's energy division has commenced construction on the NEA Kolda solar farm in southern Senegal, a 60-MW facility with 72 MWh of battery storage. Located in the Kolda ...

Madagascar-based Axian Energy has obtained EUR84 million (\$89.2 million) of financing for a solar-plus-storage project, featuring a 60 MW solar plant and a 72 MWh battery ...

Largest photovoltaic with added battery energy storage systems (BESS) project in West Africa, accelerating the uptake of critical battery technology in the region.

Axian Energy, Voltalia, and Entech have announced the signing of an EPC (Engineering, Procurement, and Construction) contract for Senegal's NEA Kolda project, It is ...

Axian Energy has secured EUR84 million (\$89.2 million) in financing for an ambitious solar-storage project in southern Senegal. The initiative--set to become the largest of its kind ...

Work on a solar energy and battery storage project in Senegal, touted to be the biggest in West Africa once it goes live, is set to begin next month after an EPC (Engineering, ...

Combining photovoltaic solar with a storage system is a unique solution to meet the current and future needs of the grid. In order to complement and ...

AXIAN Energy has launched construction of one of West Africa's largest solar power plants with battery storage, supporting Senegal's target of 40% installed renewable ...

This innovative project, led and financed exclusively by African stakeholders, marks a major milestone in the development of renewable energy in Senegal and West Africa.
