French investor Voltalia is set to build 50 solar parks in Slovakia, adding 400 MW of renewable energy capacity by 2027 to support the nation's green goals.

Slovakia added 274 MW of solar in 2024, according to figures from the Slovak Association of the Photovoltaic Industry (SAPI). The ...

A photovoltaic power station with an installed capacity of 44.2 megawatts (MW) could be built near the village of Velký Blh in the Rimavský Sobota district (Central Slovakia), TASR reported ...

The government is seeing a huge potential for solar energy generation in the country and it is reflected in the growing demand in supply for solar panels for roof installations.

Designed for mobility and fast deployment, our foldable solar power containers combine solar modules, storage, and inverters into a single transportable unit. Ideal for emergency scenarios, ...

Slovakia added 274 MW of solar in 2024, according to figures from the Slovak Association of the Photovoltaic Industry (SAPI). The result is a slight increase on 2023 levels, ...

French investor Voltalia is set to build 50 solar parks in Slovakia, adding 400 MW of renewable energy capacity by 2027 to ...

Czech utility giant CEZ is making significant strides in its commitment to renewable energy, with ambitious plans for expanding its solar capacity.

Slovak Solar s.r.o. is your reliable partner in the world of photovoltaics. From solar panels and inverters to top-notch technical ...

Slovak Solar s.r.o. is your reliable partner in the world of photovoltaics. From solar panels and inverters to top-notch technical support, we have everything you need to create a ...

Volkswagen and Kia anchor a 1-million-unit automotive base that now seeks low-carbon power for Scope 2 compliance, driving a new ...

This state-of-the-art solar module factory integrates innovative processes such as AI-based quality inspection, achieving an annual capacity of 30 megawatts. The solar panel production ...
